

System 1, Inc. Press Release

System 1, Inc. is pleased to announce that Ari Ghosal has joined the leadership team as General Counsel. Ari brings with him many years of experience of diversified business practice, representing clients on a broad spectrum of corporate matters and also in specialized areas such as government contracts, cybersecurity, data privacy, intellectual property/technology and employment matters. Prior to System 1, Ari was a Partner at a Bethesda, Maryland based firm, and comes from one of the Washington Metropolitan areas largest law firms supporting the middle market. Ari has served as outside general counsel to various corporations, small businesses, government contractors and business owners on variety of matters including compliance programs, risk mitigation and regulatory concerns. Equally significant, Ari has represented clients in a variety of legal disputes in all phases of civil litigation before state and federal courts as well as arbitration and mediation proceedings in state and federal courts and before the American Arbitration Association. Ari is a recipient of numerous awards and recognized leader in the Maryland, DC and Montgomery County Bars. Ari maintains his private practice at the Dojo Law firm. System 1 is excited to grow on Ari's capabilities in the area of legal, cybersecurity, data privacy and technology across multiple verticals to System 1's core offerings.

System 1 is a consultancy specializing in managing and reducing risk to organizations and their executive leadership. System 1 recognizes that information is a global commodity that underpins business competitiveness and national economic strength & security. By innovating and optimizing existing and emerging technologies, processes, practices and leveraging cultural change, System 1 incorporates effective cybersecurity and privacy seamlessly into a business operations and senior decision making to reduce risk. We mentor leadership, provide insight, and provide Chief X Officers (operating, security, privacy, risk, data) as a service. We also support digital forensics. Through common sense and cost-effective approaches, System 1 shows its customers how to optimize performance, modernize, and maintain industry compliance. We support client's transition to a reduced risk state transparently by leveraging behavior change to integrate cybersecurity and privacy into mission accomplishment. Our clients range from private sector to Federal agencies both domestically and internationally.
